### WILL MAKE SEANTOR

#### SIMMONS LEADER

Washington, Nov. 13.—The selection today of Senator F. M. Simmons, of North Carolina, as chairman of the sub-committee to engineer the treaty procedure out of its present tangle is accepted by metropolitan writers as a certain indication that the senior North Carolina Senator will be chosen by the Democrats as leader of the minority.

The North Carolina Senator was chosen to head the sub-committee on treaty procedure at a caucus of the Democrats this morning. Named on the committee with him are Senators Pittman, of Nevada; Walsh of Montana; Robinson of Arkansas, and Underwood of Alabama. The fact that Senator Hitchcock is not included in the list is not necessarily a slap at the man who is now leading the fight for the treaty because the Nebraska Senator has his hands full in managing the fight on the floor.

## THE CAROLINA VIRGINIA GAME

**Thanksgiving Day is Expected to Draw Big Crowd. First Game Played**

### IN NORTH CAROLINA

Chapel Hill, N. C., Nov. 13.—Preparations are being made at Chapel Hill to handle for the Carolina-Virginia game Thanksgiving Day the largest crowd that ever saw a football game in this State. Bleacher seats to hold 2,500 persons in addition to the regular seating space in the concrete stands have arrived and are being put up and Graduate Manager Charles T. Woollen has sent to the alumni this week application forms for seats. Other arrangements are beginning to assume definite form and from the point of view of numbers and general interest, as well as in the playing itself, the game is expected to be the greatest football contest ever staged in North Carolina.

The present game is the first Carolina-Virginia to be played in North Carolina. Former games have been played in Richmond, except in 1907, when the game was in Norfolk. The agreement between the two universities calls for the game to be played before the student bodies of each university on alternate years, and the next game will be played therefore, in Charlottesville.

The present concrete stand on Emerson Field will seat 2,500 persons and with the addition of the bleacher seats, which will be placed on the opposite side of the field, seats will be provided for 5,000 persons. Every one of these seats will be reserved. To prevent the falling into the hands of speculators they will be sold direct to students and alumni. Several sections of the stand will be reserved for the cheering students, but all the rest of the seats will be open to the alumni.

Applications forms sent out this week by Graduate Manager Woollen call for direct orders for seats. The price will be \$2 and the allotment will be made November 20th, seats being allotted in the order in which applications are received. In addition to the stands on both sides there will be standing room at either end of the field.

The general expectation is that the reserved seats will be sold out completely and the crowd will number over 5,000. The normal cafe and hotel service of Chapel Hill will be supplemented on Thanksgiving Day by changes in the service at the University dining halls, Swain Hall and University Inn, at both of which places light buffet lunches will be served. As sleeping accommodations in Chapel Hill are sharply limited on account of the large number of students, it is expected that the crowd will leave shortly after the game and train arrangements are being made on that assumption.

Several special trains are being arranged for, one from Charlotte, another from Winston-Salem, a third from Goldsboro and probably others from Virginia and other parts of North Carolina. A great number of visitors are expected to come in automobiles and special arrangements are being made in Chapel Hill to handle the heavy traffic and the parking of the cars.

There will be no dance in Chapel Hill Thanksgiving night but dances in Durham and Raleigh are expected to attract many of the students and visitors. During the day one building, will be turned over entirely for the comfort and convenience of ladies.

### WEATHER

Forecast for North Carolina: Fair tonight and Saturday; slightly warmer tonight southeast portion; moderate to fresh northeast winds on the coast.

## RESERVATION IS PUT OVER

**Four Democrats Help the Republican Opponents of League**

### PUT OVER RESERVATION

Washington, Nov. 13.—Squarely joining the issue with President Wilson, the Senate adopted today a reservation qualifying the obligations of the United States under article ten of the League covenant.

A solid Republican line-up reinforced by four Democratic votes, put the reservation across exactly as it came from the foreign relations committee and in virtually the language which the President declared on his western tour would cut the heart out of the covenant and mean the rejection of the treaty. The vote by which the reservation won was 46 to 33.

The fight for reservation having thus been carried to a climax the Republicans presented for future action a cloture proposal designed to bring final action on the question of ratification within a week. A less sweeping measure, proposing limitation on the reservation debate, only had been put in by the Democrats earlier in the day, but rejected when the Republicans voted to sustain a point of order against it.

A vote on the question of clamping down a cloture on debate will come Saturday morning and the Republican leaders say it will depend entirely on the Democrats whether the move rallies the necessary two-thirds to make cloture effective. The Democratic leaders were not ready tonight to say how they would vote, being fearful that agreement to so sweeping a program might imperil their chances to secure action on a ratification resolution of their own.

The article ten reservation as adopted by the Senate follows:

"The United States assumes no obligation to preserve the territorial integrity or political independence of any other country or to interfere with controversies between nations—whether members of the league or not—under the provision of article ten, or to employ the military or naval forces of the United States under any article of the treaty for any purpose unless in any particular case the Congress which under the Constitution, has the sole power to declare war or authorize the employment of the military or naval forces of the United States, shall by act or joint resolution so provide."
